Summary

Data Science and Data Analytics graduate with practical experience in Machine Learning, Data Analytics, and Database Management through internships and academic projects. Proficient in Python, SQL, Power BI, and AI fundamentals, with hands-on experience in exploratory data analysis, predictive modeling, dashboard development, and developing intelligent data-driven solutions for real-world applications.

Education

Qualification	Institution	Board / University	Year	Score / Grade
B.Sc. – Data Science & Analytics	Vivekanand Education Society's College, Mumbai	University of Mumbai	2026	CGPA: 8.86
Intermediate (HSC) – MPC	TSBIE, Nizamabad, Telangana	TSBIE	2023	87.60%
Secondary School (SSC)	Oxford High School, Nizamabad	BSE Telangana State	2021	95%

Skills

Programming	Python SQL Java
Data Analytics	Pandas NumPy Data Cleaning EDA Statistical Analysis Feature Engineering
Machine Learning	Scikit-learn Supervised Learning Unsupervised Learning Classification Regression Model Evaluation
AI & Deep Learning	TensorFlow Keras NLP LLMs RAG
Visualization	Power BI Tableau Excel
Databases	MySQL MS SQL Server
Big Data	Hadoop Apache Spark PySpark HBase
Tools	Git GitHub Jupyter Notebook

Projects

Mental Health Chatbot GenAI System

Tech: TinyLLaMA, Ollama, FAISS, SentenceTransformers, Python

- Designed and deployed an LLM-powered conversational chatbot with semantic retrieval.
- Implemented FAISS vector search for context-aware and accurate responses.
- Built a modular Flask backend supporting smooth conversational workflows.
- Architecture aligned with AWS Lex / Dialogflow-style chatbot systems.

Project Samarth – AI Q&A Platform for Agriculture & Climate

Tech: Python, Flask, LLMs, Vector Search

- Built an intelligent chatbot-based Q&A platform using local agriculture and climate datasets.
- Enabled smart search with source-aware responses and real-time data fetching.
- Designed secure, scalable backend architecture with environment variable protection.
- Delivered AI-driven insights for farmers and policy-focused use cases.

Credit Card Fraud Detection

Tech: Python, SQL, Pandas, Scikit-learn, Power BI,

- Analyzed transaction data to identify fraudulent patterns using exploratory data analysis and feature engineering.
- Developed and evaluated machine learning models for fraud detection.
- Created interactive Power BI dashboards to visualize fraud trends and support data-driven decision-making.

House Price Prediction

Tech: Python, Pandas, Scikit-learn, Excel

- Performed data preprocessing and exploratory data analysis on housing datasets.
- Built regression models to predict house prices based on key features.
- Evaluated model performance and identified factors influencing property price.

Work Experience

X Grace Technologies Pvt LTD.

Pune, India

DATABASE MANAGEMENT INTERN

NOV 2025- MAR 2026

- Managed and maintained databases for a web development project, ensuring data accuracy and consistency.
- Designed database schemas, tables, and relationships based on project requirements.
- Collaborated with developers to integrate database structures with web application requirements.
- Maintained data integrity, documentation, and structured datasets for project delivery.
- Wrote SQL queries for data extraction, validation, and reporting, improving reporting accuracy and reducing manual effort.

Med Tour Easy

Mumbai, India

DATA ANALYST TRAINEE

AUG 2025- SEP 2025

- Analyzed healthcare datasets using Python and SQL to generate operational and business insights.
- Performed data cleaning, exploratory data analysis (EDA), and feature preparation.
- Built interactive dashboards using Power BI and Tableau to support management decision-making.
- Worked with cross-functional teams to communicate analytical outcomes to non-technical stakeholders.

Null Class

Remote, India

DATA SCIENTIST INTERN

OCT 2024 - DEC 2024

- Developed ML and analytics solutions that reduced manual data processing effort by ~60%.
- Applied NLP techniques on textual and event-log datasets for insight extraction.
- Worked in Microsoft Azure-based environments for model experimentation and analytics workflows.
- Strengthened foundation in Machine Learning, Deep Learning, and statistical analysis through applied projects

Certifications

2024	Artificial Intelligence & Machine Learning	ISRO, India
2024	Cloud Computing Certification	University, India
2025	Google Advanced Data Analytics	Coursera, India
2025	GenAI-Powered Data Analytics	Forage, India
